

THE ROI OF EMPLOYEE ENGAGEMENT

Employee engagement drives individual performance in an organization, but do companies with more **engaged employees** outperform those with a less-engaged workforce? Can the company show a stronger financial **performance** and operational efficiency with engaged employees?

Scholars, consultants, non-profits, and companies have been researching the **ROI of employee engagement** for quite some time. The correlative data revealed in their research initiatives is significant.

Here are some findings:

INCREASED PROFITS

According to a study¹ conducted for the UK government, companies with a highly engaged workforce experience (over a 12-month period) a

19.2% GROWTH

IN OPERATING INCOME.

Another study² found engaged companies **grow profits** as much as

3X FASTER
THAN THEIR COMPETITORS.

RETENTION

The Corporate Leadership Council studied³ the engagement level of 50,000 employees around the world and found **highly engaged employees** are

87% LESS LIKELY
TO LEAVE THE
ORGANIZATION.

COST OF DISENGAGEMENT

A study⁴ by McLean & Company found a disengaged employee costs an organization approximately **\$3,400 for every \$10,000 in annual salary.**

The same study found that lost productivity due to **disengaged employees** cost the US economy up to

If companies want to bolster productivity and profitability, increase customer loyalty, and slash attrition and disengagement losses, they *have* to **engage employees.**

Engage your people and see results.
